

*Nutrience*

Nourish the body.  
Fuel the spirit:

*Pet food*

## MADE WITH PURPOSE

From our quality North American ingredients backed by our 'No Bad Anything' promise, to our unique small-batch production for superior control, every bag we craft represents an unwavering attention to quality and an ongoing commitment to natural, wholesome nutrition.

Ultimately, living well is a choice we make for ourselves and our pets. It's the reason we create foods you can feed with the same pride we have in making them.

**Nourish the body. Fuel the spirit.™**

..... *Good food is not* .....

## GREAT FOOD

There are a lot of pet foods on the market, enough to make it difficult, if not near impossible to know at first glance which one would be best for your pet. Here are some things we think you should know to make the choosing easier.

**Good food** contains quality ingredients and is made by large corporations with basic quality control standards, or is outsourced by marketing firms to be processed at the discretion of third party manufacturers. Either way, it will do a good job filling your pet's stomach.

**Great food** contains nutritionally balanced, trustworthy Canadian and US sourced ingredients made in small batches for superior quality control. It is crafted with pride and made with purpose by companies that are family owned.

**Nutrience is great food**, built to nourish your pet from the inside out, while providing the necessary fuel to let their true spirit shine.

..... *Doing it right,* .....  
**MEANS DOING IT YOURSELF**

To provide every assurance possible that the pets we feed are well nourished and full spirited, every bag of Nutrience is processed to the highest possible standard within pet food manufacturing and is in fact equal to that of human grade facilities.

Every batch made passes the most rigorous testing procedures, subscribes to the most stringent food processing policies and is double checked by third parties for safety.

In addition, our facility is routinely audited by NSF International and found to be compliant with regulatory standards, client specifications and procedures.

We take great measures to ensure our quality control, food handling and testing procedures surpass industry standards. We make improvements every step of the way, because we care about quality the same way you care for your pets.

Crafted with pride,  
made with purpose.  
Fabriqué avec fierté,  
dans un but précis.

**NO BAD ANYTHING**  
No wheat, soy, by-products,  
artificial colors, flavors  
or preservatives.

NSF International, an independent, not-for-profit, non-governmental organization, is dedicated to being the leading global provider of public health and safety-based risk management.

..... *Since 1955* .....  
**A FAMILY TRADITION**

*“If we’re going to give our family name to something, it has got to be the very best. Our customers trust us and we need to prove we deserve that trust. After all, without them, we wouldn’t be in business.”*

ROLF C. HAGEN, Founder  
Rolf C. Hagen Inc.

These guiding principles of the first generation of Hagens, established nearly sixty years ago, are as much a part of Rolf C. Hagen Inc. today as they were then.

Now in its second generation of family ownership, the company operates its own pet food facility as the means of providing absolute assurance that its Nutrience brand promise is kept; creating foods made from quality ingredients that truly nourish pets to live a healthier and longer life.

Rolf C. Hagen (right) with then warehouse manager circa 1959.

## *Taking* GOOD FOOD TO GREAT

Sourcing ingredients from world class Canadian and US growers is a priority in our foods. Fruits, vegetables and botanicals harvested at their peak combined with top of the line meat and fish proteins are at the core of our product.

Add just the right amounts of healthy fats, low-glycemic carbohydrates and nutritional supplements and a good food is made great. That great food is Nutrice.

### • FEATURING •

Quality meat  
& fish proteins

Regional fruits  
& vegetables

Nutrient-rich  
botanicals

### *Plus*

- Essential healthy fats
- Low-glycemic carbohydrates
- Nutritional supplements

*Nothing but the best*

## MEAT & FISH PROTEINS

Whether it's fresh turkey, free-run chicken, whole egg, Atlantic salmon or any of the many other high grade animal and fish proteins we use, they will always be the very best that can be sourced. You have our word on that.

### • FEATURING •

**Fresh turkey**

**Free-run chicken**

**Duck**

**Whole egg**

**New Zealand lamb**

**Atlantic salmon  
& menhaden**

**Fresh de-boned  
cod, herring,  
haddock, flounder  
& pollock**

*See and feel the difference*

## ESSENTIAL HEALTHY FATS

Yes, there are such things as healthy fats and they are essential to the well being of your pet. Your pet cannot produce these on their own which is why they must be found in their diet. These healthy fats, including omega-3 and omega-6 fatty acids, are principle ingredients of every Nutrience formula. You can both see and feel the difference when feeding foods of superior value.

### **Fish & salmon oil**

Coldwater fish such as salmon and herring contain some of the highest levels of DHA and EPA omega-3 fatty acids. They can improve your pet's skin and coat, reduce inflammation, regulate the immune system, improve cognitive function and assist in prenatal development.

### **Flaxseed**

These tiny seeds are packed with nutritional components. They're a good source of omega-3 fatty acids and high in soluble and insoluble fiber.

### **Coconut oil**

Coconut oil contains lauric acid, a medium chain triglyceride (MCT), that elevates the metabolism, provides a higher level of energy and vitality, protects from illness, and speeds healing. Coconut oil also improves skin and coat conditioning, enhances digestion, and reduces allergic reactions.

## *Protective antioxidants*

# REGIONAL FRUITS & VEGETABLES

### **Pumpkin, butternut squash, carrots, spinach & broccoli:**

Their bright colors alone are indicative of the presence of powerhouse nutrient beta-carotene. It boosts the immune system, guards against illness, and promotes cardiovascular health and good vision. Moreover, they contain anti-inflammatory properties, cancer-fighting properties and are a good source of dietary fiber.

### **Apples & pears:**

Apples and pears provide sources of pectin (soluble fiber) to aid digestion and are rich in potassium, helping to maintain heart and muscle strength.

### **Blueberries, cranberries & pomegranates:**

Known as “superfruits”, pomegranates, blueberries and cranberries are renowned for their numerous protective anti-aging and metabolism boosting effects. These include fighting heart disease, memory loss, cancer, urinary tract infections and obesity.

## *Nature's remedies*

# NUTRIENT-RICH BOTANICALS

Botanicals have been valued for their medicinal and therapeutic properties throughout history. We've been including them in our formulas for over 15 years for their power to naturally strengthen, heal and cleanse the body.

### **Ginseng:**

Increases physical and mental performance.

### **Ginkgo Biloba**

Helps improve circulation and enhances blood-flow to the brain thereby increasing memory and concentration, and aids in the prevention of vision degeneration.

### **Ginger, Fennel & Peppermint**

Support the entire digestive system.

### **Juniper Berries:**

Promote urinary tract health, lower blood glucose levels, strengthen kidney function and may reduce the risk of cardiovascular disease.

### **Green Tea:**

A rich antioxidant with numerous protective properties that fight against cancer, the inflammatory effects of arthritis and heart disease. It also boosts metabolism and helps burn fat.

### *The better choice*

## LOW-GLYCEMIC CARBOHYDRATES

The low-glycemic carbohydrates in Nutrience foods may lower the risk of diabetes and help prevent obesity.

By limiting carbs to those with a lower glycemic index where possible (lower or slower release of glucose into the bloodstream), the pressure on the cells to produce insulin is reduced – as is the risk of diabetes.

We include staples such as sweet potatoes, steel-cut oats, lentils, and green peas, to be not only delicious, healthy ingredients, but to contribute to a longer and healthier life for your pet.

### *Going above and beyond*

## NUTRITIONAL SUPPLEMENTS

Nutritional supplements are beneficial to humans and pets alike. In addition to ensuring that our formulas contain all the vitamins, minerals and amino acids our pets require we've also added the natural powers of botanical supplements as well as prebiotics, probiotics, glucosamine and chondroitin.

While prebiotics and probiotics work together to support a healthy digestive system, glucosamine and chondroitin are incorporated into our formulas to help maintain hip and joint health.

Search for better. Feed the spirit.

# Nutrience Natural

PROVIDING YOUR PET WITH A HEALTHY LIFESTYLE  
BEGINS WITH WHAT YOU PUT IN THE BOWL.

Nutrience Natural is a complete and balanced meal of fresh meats, fish, low-glycemic carbohydrates, healthy fats, whole fruits, vegetables and botanicals — a combination that will nourish your pet to play, be fit and stay active.

# Nutrience

GRAIN FREE

THE OPTIMAL BLEND FOR ALL BREEDS AND LIFE STAGES

More closely mimicking a carnivore's ancestral diet, Nutrience Grain Free offers all the same nutritious qualities of Nutrience Natural, but without the grain. Fresh meats and fish are combined with healthy fats, fruits, vegetables and botanicals, while grains are replaced with low-glycemic lentils and sweet potatoes. It's a great substitute for pets with certain food sensitivities and an excellent choice for pets with a particularly active lifestyle or for pet owners who simply prefer to feed their pets a grain free diet.

• FEATURING •

## TWO DISTINCT FORMULAS RICH IN ANIMAL PROTEIN:

### Turkey, Chicken & Salmon

featuring fresh turkey, free-run chicken, Atlantic salmon & whole egg

### Ocean fish & Salmon

featuring deboned ocean whitefish, Atlantic salmon and menhaden (free of egg and poultry)

### With Regional fruits, vegetables & botanicals:

These include pumpkin, butternut squash, carrots, spinach, broccoli, apples, pears, blueberries, cranberries, pomegranate, juniper berries, ginger, fennel, green tea extract, peppermint leaf, ginkgo and ginseng.

### Plus Marine source omega-3:

Salmon oil is used as the primary source of DHA and EPA **omega-3 fatty acids** to ensure a healthy skin and coat.

### Plus Nutritional supplements:

Powerful **prebiotics & probiotics** provide a greater absorption of nutrients and promote a healthier digestive tract, while increased levels of **glucosamine** and **chondroitin** offer advanced hip & joint protection.
