IMPORTANT NOTICE
Based on external dimensions, filled to the maximum fill level (without ground) the approximate volume of water in this tank is: 180L (47.5 gal US).
Use only Fluval External Filter mountable aquariums for a trouble-free run in this volume of water.
Recommended maximum stocking levels for tropical fish:
1 cm of fish (excluding tail) to 3 litres of water.
For coldwater fish:
1 cm of fish (excluding tail) to 2 litres of water. It may, therefore, be necessary to upgrade the filter included with this tropical tank if you wish to keep coldwater fish.
THIS AQUARIUM MUST ONLY BE USED WITH THE CORRECT FLUVAL STUDIO AQUARIUM STAND.
Although iron and single iron stands, together with H.O. value, U stainless, shrinks of Fluval Studio Aquariums, furniture are NOT suitable for use with a Fluval Designer Aquarium.
TO DO SO WILL AUTOMATICALLY INVALIDATE THE GUARANTEE.
Polystyrene pads under the EXT do not seal with the aquarium. Ask for support of the stand must be in contact with the entire bottom frame of the aquarium.
WARNING
THIS TANK WHEN FILLED APPROXIMATELY 180 kg (378 lb).
Please take care when lifting it and use the appropriate number of people and method of lifting (i.e. when of the size and weight).
