													MAINTENANCE:
•	•												Weekly optimum biological support
•			•		•						•		Partial Water change
•				•									Water change marine aquarium w/protein skimmer
			•	•	•								Water top up
•	•												Filter maintenance
												•	Plant feeding
													SPECIFIC TREATMENT:
•			•		•								New fish introduction
•			•		•	•	•	•	•				New aquarium installation
		•											Water cloudiness (biological)
										•			Water cloudiness (particulate)
•							•						High ammonia and/or
•			•		•								After medicating
			•		•								Transporting fish
			•		•								Fish abrasions, lacerations or wounds
•													Fish loss
	•												Surface film reduction & control
						•	•						pH adjustment
								•					KH increase required (improve pH buffering)
						•		•					pH regularly drops
									•				General Hardness increase required
													AQUARIUM TYPE:
									•				Heavily Stocked Aquariums
•									•				Cichlid aquariums
•	•		•		•	•			•	•			Goldfish aquariums
•	•		•				•	•	•				African Cichlid & Hard water aquariums
•	•		•						•				Planted aquariums
											•		Blackwater and/or Acidic pH Preferring Species
-	1												Actual pri Freierring Species
