

POND ISSUE & SOLUTION CHART

ISSUE

PRODUCTS TO TREAT ISSUE

PRODUCTS TO PREVENT ISSUE

| | | |
|--|---|---|
| <p>Green Water</p>  |  <p>Clear Fast - PT871, PT873 A fast-acting formula that clears cloudy or discolored pond water and helps clump debris, making it easier for removal by mechanical filtration.</p>  <p>Pond Clean Granules - PT905, PT906, PT907 A fast-acting formula, cleans and clears pond water on contact, quickly cleaning rocks and waterfalls.</p> |  <p>Barley Straw - PT575 A slow release, natural way to maintain clear water.</p>  <p>Phos-X - PT570, PT571, PT572 Easy to use, Phos-X absorbs and traps phosphate, nitrite and nitrate, gradually and safely.</p>  <p>Phosphate Control - PT896, PT898 Micro-organisms reduce phosphate levels and improve water conditions for pond inhabitants.</p> |
| <p>String/Hair Algae</p>  |  <p>Pond Clean Granules - PT905, PT906, PT907 A fast-acting formula, cleans and clears pond water on contact, quickly cleaning rocks and waterfalls.</p>  <p>Pond Clean Liquid - PT881, PT883 Quickly restores your pond's natural balance and helps prevent unsightly water conditions.</p> |  <p>Barley Straw - PT575 A slow release, natural way to maintain clear water.</p>  <p>Phos-X - PT570, PT571, PT572 Easy to use, Phos-X absorbs and traps phosphate, nitrite and nitrate, gradually and safely.</p>  <p>Phosphate Control - PT896, PT898 Micro-organisms reduce phosphate levels and improve water conditions for pond inhabitants.</p> |
| <p>Cloudy Water</p>  |  <p>Clear Fast - PT871, PT873 A fast-acting formula that clears cloudy or discolored pond water and helps clump debris, making it easier for removal by mechanical filtration.</p> |  <p>Bio Booster* - PT891, PT893 Millions of beneficial bacteria boost the natural biological efficiency of ponds as well as reduce and control toxins.</p>  <p>Bio Sludge Control* - PT886, PT888 Formulated to break down organic solids, it safely activates immediately when added to the pond.</p> |
| <p>Organic Waste & Sludge</p>  |  <p>Bio Booster* - PT891, PT893 Millions of beneficial bacteria boost the natural biological efficiency of ponds as well as reduce and control toxins.</p>  <p>Bio Sludge Control* - PT886, PT888 Formulated to break down organic solids, it safely activates immediately when added to the pond.</p> |  <p>Bio Booster* - PT891, PT893 Millions of beneficial bacteria boost the natural biological efficiency of ponds as well as reduce and control toxins.</p>  <p>Bio Sludge Control* - PT886, PT888 Formulated to break down organic solids, it safely activates immediately when added to the pond.</p> |

*use together to prevent an Ammonia spike
